

Sneha Chandravanshi

+91 7724905769 | snehachandravanshi2022@vitbhopal.ac.in | LinkedIn | GitHub

Education

Vellore Institute of Technology

2022 – 2027

Integrated (B.tech + M.Tech) in Artificial Intelligence. CGPA: 8.42

Coursework

Data Structures & Algorithms ,Computer Networks , DBMS , Operating System

Experience

MERN Full Stack with AI Intern

Nov 2025 – Dec 2025

Ethnus (Codemithra)

- Built scalable MERN applications supporting 5+ modules, improving system efficiency and modularity.
- Developed 15+ REST APIs, reducing response time by 25% through query optimization and indexing.
- Created 20+ reusable React components, cutting code duplication by 30%.
- Integrated AI-based automation, reducing manual workflow effort by 40%.

Projects

SkillAI – AI-Powered Personalized Learning Platform [Github](#) | [Live](#)

Jan 2026 – Feb 2026

React.js, Node.js, Express.js, MongoDB, TailwindCSS, Groq API, JWT

- Built a full-stack AI learning platform integrating Groq API to generate 100+ personalized roadmaps and quizzes, improving learning automation and engagement.
- Developed 20+ secure REST APIs with JWT authentication and a responsive React UI, enabling real-time progress tracking and improving performance by 30%.

EchoAI – Conversational Voice Agent [Github](#)

Dec 2024 – Feb 2025

Python, Mistral LLM (Ollama), ElevenLabs API, VADER Sentiment, Google Speech Recognition

- Designed a modular voice-based conversational AI system using local Mistral (Ollama), VADER sentiment analysis, and ElevenLabs TTS, achieving 90% real-time response accuracy with emotion-aware replies
- Optimized end-to-end audio processing and system reliability, reducing response latency to <8 seconds using Pydub & Simpleaudio and implementing fallback mechanisms for speech recognition and LLM failures.

Nutrivista- Health-Focused Food Platform [Github](#)

Oct 2023 – Jan 2024

HTML, CSS, React.js, SQL, Python, Flask, Dialogflow

- Deployed a Dialogflow-powered chatbot automating 85% of customer queries, reducing response time to <5s and increasing order conversion by 22%
- Implemented a secure Flask + SQL backend handling authentication, orders, and payments, and designed a 50+ item health-focused food catalog ensuring smooth, reliable transactions

Technical Skills

- **Languages:** C++, C, Python, Java, JavaScript, HTML, CSS
- **Databases & Tools:** MongoDB, SQL, Excel, Git, Power BI, Ollama
- **Frameworks :** React.js, Node.js, Dialogflow, Django, Flask, Tensorflow
- **Libraries:** Pandas, Scikit-learn

Certifications & Extracurricular

- Journal Submission (Under Review) – “Study of Classical Machine Learning and Deep Learning Methods for Image-Based Deepfake Detections” Jul 2025
- Certified AI Foundations Associate (Oracle) Oct 2025
- Certified Generative AI Professional(Oracle) Oct 2025
- Cloud Computing Apr 2024
- Artificial Intelligence Foundations: Thinking Machines May 2023
- Applied Machine Learning in Python Dec 2023

Achievements

- Finalist – Top 50 out of 350+ Teams – The Food Hackathon CSIR-CFTRI, Mysuru May 2024
- 5- Star SQL Rating on HackerRank
- Completed 100 Days of DSA Challenge
